TWENTY-EIGHTH YEAR NO. 18.

CEDARVILLE, OHIO, FRIDAY, APRIL 21, 1905.

PRICE \$1.00 A YEAR.

THE CASES ARE ALL ANNULED

The latest developments in the primary situation is that Messrs. Frank Jackson and W. B. Stevenson, who caused the arrest of Messrs. J. S. Brown, D. B. McElwain and Edwin Dean for disturbing an election, have failed to secure the costs in prosecuting the cases and that the prosecuting attorney has annulled the three cases.

These men, Stevenson and Jackson, have by refusing to prosecute Messrs. Brown, McElwain and Dean shown that they did not desire to prosecute these men, and all that was desired was that Mr. Brown be taken from the room during the voting while the machine was in full operation.

To clear up the situation and establish a precedent those voters from other precincts that voted in the township will now be called on the carpet for violating the law in this respect. The penalty is not less than \$100 nor more than \$300 or imprisonment in the penitentiary for one year, or both. There were three or four cases, one of whom should have voted in the primary for the corporation.

The filing of charges against Mr. Brown and the failure to have the cases come up in court for trial will be retaliated by Mr. Brown, by him bringing damage suits against Messrs. Jackson and Stevenson.

With a large majority of the citizens of the township there is a desire to see some punishment inflicted on those who stoop to do the bidding of the "gang" and an example must be made of some one to check the corruption in our primaries and elections.

We wish especially to thank the minister, Rev. Middleton, who so ably conducted the services. You know the medicine that makes pure, rich blood—Ayer's Sarsaparilla. Your mother, grandmother, all your folks, used it. They trusted it. Their doctors trusted it. Your doctor trusts it. Then trust it yourself. There is health and strength in it.

I suffered terribly from indigestion and skin blemishes. I found no relief until I took Ayer's Sarsaparilla. Four bottles permanently cured me.

COMMITTEE ORGANIZES.

The Herald gave its readers the proper tip in the last issue that the central committee, would meet in Xenia Thursday instead of Saturday. Boss "Schmidt" with lieutenants, Dines and Creators lined up the "gang" members and re-elected the following officers: Andrew Jackson, Chairman; Dr. A. D. De Haven, Secretary; Ed. Foust, Vice Chairman; Cheney Creators, Treasurer. The following were named on the Executive Committee: George Drake, D. O. Jones, J. B. Christopher, T. L. Magruder, W. F. Orr, George Little, George R. Kelley, Alphonso Lane, I. S. Dine, J. A. Johnson, J. J. Breun, and T. B. Andrew. The county convention will be held in Xenia on May 11 to select delegates to the state convention. It will be noticed that the Executive Committee is full of men under the Schmidt influence. Just enough anti's were named to give the committee coloring of political respectability.

The many friends of Mr. James Hatfield, of Clark county, will be pleased to know that he was nominated yesterday for representative on the Republican ticket, against J. B. Trumbo. The British Bathing Follies.

One of the earliest impressions of an American in London is that Englishmen regard a bath as a luxury and not as a matter of course—a luxury to be paid for. At the hotel he has landed in he must pay 2 shillings for a warm bath. And his conclusion is that the Englishman, in spite of his traditional tub, is not a clean man. He cannot afford to be clean in a London hotel.

Two warm baths a day. That is the American's average. Four shillings. He has a wife and a son and daughter. Sixteen shillings a day. Reckon out the expense, and you will find that this man must pay about \$300 a year to keep himself and his family clean. The American visitor has figured out that at least twelve calls on that bath are made every day. Nine hundred a year profit from a bathroom that certainly did not cost \$200 in the building!—London Chronicle.

American Capital Saved England.

Were there no United States would English society be solvent? asks Marmaduke in the London Graphic. That question has never yet been asked or examined. Several millions have been brought into our society during the last forty years by American heiresses, and an enormous sum has been received in exchange for land, paintings, engravings, old furniture, works of art, jewels, plate and books. Moreover, American capital has been invested in this country mostly through the intervention of titled Englishmen, who, of course, have generally benefited by the transaction. Probably \$100,000,000 has come to the west end through these various transactions. Would the west end have been bankrupt had that sum not been procurable?

SECRET BENEFACTORS.

Persons Who Give Liberally Without Disclosing Names.

Anonymous gifts to charities are common enough, but it may be news to readers that there is a section of the community who give largely and regularly and who have a positive dread of anybody in the world knowing that they have so disposed of a penny, says Tit-Bits.

Mr. Dibdin, the secretary of the National Lifeboat institution, informed the writer that he was going into his office one day when a man entered and inquired, "Is Mr. Dibdin in?" "Yes," said the official, "Do you wish to see him?" "Oh, no," the stranger replied. "It will do just as well if you give this envelope into his own hands." And so saying he handed over the envelope and hurried out of the place. When it was opened it was found to contain a £1,000 bank note.

Another old man entered the office one evening some seventeen or eighteen years ago, remarking, "As I happened to be passing, having noticed the name outside, I thought I would look in and see if you were in want of money." The secretary assured him that the institution was constantly in need of money. Without producing any at that moment, the caller then proceeded to talk politics and asked for Mr. Dibdin's views on Mr. Balfour and other statesmen who were prominently before the public. The visitor appeared to agree heartily with all that the secretary said, and presently, as if to show his appreciation of these views, he produced a bank note and laid it on the desk.

They still went on talking politics, and in a little while the old gentleman brought out another bank note and laid it on top of the first one. Presently he added a third, fourth and fifth to the pile, and Mr. Dibdin, then coming to the conclusion that it was the politics that was doing it, kept on talking it as long as he could. Soon £2,000 worth of bank notes lay on the table, and then the caller, who declined to give his name, abruptly walked out of the office and has never been seen or heard of since by the officials of the institution.

The London Bible Woman's mission was fortunate to enjoy a somewhat similar experience once every year for several years. An elderly man walked into the office once annually and inquired what was the total amount of the mission's deficit. When he was informed of it he put down the money and walked out. From this source the mission received £3,000 in all, a single donation on one occasion being for as much as £3,000.

THE LIVER QUARANINE

"TAKING HIS MEALS OUT."

Hurried eating has ruined many a man's stomach. The digestion-destriving process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them a safe haven, inviting some serious illness. In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

WORK ON THE DOUBLE TRACK.

The final arrangements have been made by the Pennsylvania railroad to extend the double track on this division from Wilberforce to Florence, a distance of about thirty miles. The supplies for the work have been ordered, and the men to do the work are now being secured. The double track out of Xenia was laid as far as Wilberforce last summer.

CHARITY BALL

Governor and Mrs. Myron T. Herrick will in all probability, grace with their presence, the fourth annual charity ball to be given by the Xenia Elks next Tuesday evening.

The governor is considering very favorably the invitation to attend the ball, extended to himself and wife, by a committee from the Elks lodge, which visited him in Columbus last Thursday, and has assured the lodge, that only some unforeseen circumstance would prevent him attending the ball. Colonel J. L. Smith, superintendent of the Ohio Soldiers' and Sailors' Orphan Home, who accompanied the committee to Columbus, invited the chief executive and his wife to be his guests at the home during their stay in Xenia, provided they are able to be here that evening.

Ample seating room has been arranged for by the committee in charge of the ball, and all persons who attend the affair for the purpose of enjoying the musical feast, and being in the midst of the brilliant assemblage, will find themselves comfortably provided for. All of the eleven private boxes, which will be sold at auction to the highest bidder in the Elks rooms Tuesday evening of this week, will occupy the length of the east side of the armory, leaving all the other space not taken up by the dancers, for seating accommodations. Box No. 6 has been reserved for the governor, who if he is enabled to attend the affair, will occupy the box with his wife, and Colonel and Mrs. Smith.

PROHIBITION CONVENTION.

The Prohibitionists held a county convention at the office of George Dodds Saturday afternoon. E. S. Bailey, of Yellow Springs, presided, and the following county ticket was nominated: Representative, Rev. J. D. Hynes, Yellow Springs; treasurer, W. T. Bryson, Xenia; probate judge, Joseph H. Brochert, Cedarville; clerk of courts, Charles Dodds; commissioner, E. S. Bailey, Yellow Springs; infirmary director, W. H. Babb, Spring Valley; coroner, G. W. Shroff, Yellow Springs. The following were appointed delegates to the state convention: E. S. Bailey, J. W. Collins, J. Wallace Collins, J. D. Anderson, Rev. P. D. Hynes and Rev. Dr. Joseph Kyle. Rev. Robert Pretlow, of Wilmington, was nominated for state senator from the Fifth-Sixth district. F. E. McCartney, state chairman, attended the meeting.—Gazette.

The contract has been let for the erection of the new Second United Presbyterian church in Xenia to Dice Bros., of that city, for \$22,400. It is expected that the edifice when completed will cost about \$25,000. While the new church is being erected this congregation will use the old Third U. P. church.

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them. "PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

That the wires are not injured at the joints, That the fence is perfectly adjustable to uneven ground. That the stays will not separate from the strands. That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

C. M. CROUSE.

Science has developed something infinitely better than the old-style wrap or clamp.

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and I times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisement for I am widely known in this locality."

Manager of J. H. BOYMAN, Nashville, Tenn.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money. Miles Medical Co., Elkhart, Ind.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 10 oz.—one full pound—while all other Cold Water Starches are put up in 3 1/2 pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking! Defiance never sticks.

The Chloroform Age.

There was nothing new in Dr. Osler's little joke about applying chloroform at the age of sixty. The idea antedates the discovery of chloroform by twenty-five centuries or so. One of the Greek islands in the Aegean sea is called Ceos. The traditions of this island are exceedingly old. The place is chiefly renowned now for its raisins, but there was a time when it was famous for its laws. The excellence of these laws was so generally recognized that the phrase "Ceian laws" passed into a proverb. One of these "excellent" laws, which "forbade a citizen" in the language of the Encyclopaedia Britannica, "to protract his life beyond sixty years, affords a curious instance of the application of the utilitarian principle."

Odd Names For Newspapers.

The names of American newspapers are a study in nomenclature. In Arkansas are the Buzz Saw and the Back Log; California, the Condor, the Wasp and the Tomahawk; Colorado, the Rattler and Yesterday; and Today; Iowa, the Postal Card, the Unit, the Nucleus and the Firebrand; Kentucky, the Salt River Tiger, the Push, the Boomer; Missouri, the Missing Link and the Cyclone; Nevada, the Rustler. Oklahoma rejoices in the Dinner Bell and the Plain People. South Dakota has a Plain Talker. In West Virginia is the Irrepressible. Missouri has the Crank and the Enterprising Wedge. Wyoming reads Bill Ballon's Budget. —Philadelphia Ledger.

The Icy Cold in Tibet.

One who went with Colonel Younghusband to Lassa wrote of the hardships encountered as follows: "Despite the protection of almost arctic clothing one shivers until the sun rises over the eastern hill at 10 o'clock and shivers again when it sinks behind the opposite one at 3. Icy winds sweep the valley, and hurricanes of dust invade one's tent. Against this cold one clothes oneself in flannel vest and shirt, sweater, flannel lined coat, poshies or Kashmir sheepskin, wool lined Gilet boots and fur or woolen cap with flaps meeting under the chin. The general effect is barbaric and picturesque."

DIDN'T GET THE JOB.

Why One Man Is Now Careful About Stamping Envelopes.

"I know a man who lost a good job once by doing that," said the tall, slim man in the lobby of the Stafford.

"Doing what?" asked the short, fat man who was putting a stamp on an envelope.

"Why," said the tall man, "sticking a stamp on lopsided."

"You don't say!"

"I do," said Harold D. Stauffer of New Orleans. "It happened that I was the young man. It was not so many years ago either. A paper in Galveston had advertised for a proofreader in 1893, and at that time I was out of work and needed a place badly. The salary was good, the work congenial, and I had enjoyed some little experience at it with satisfaction to myself. So I wrote a formal application, addressed the envelope and hurriedly stuck a stamp on about a quarter of an inch northeast of the proper position and zigzaggy across the top. A few days later I received this answer:

"Dear Sir—Your application has been placed on file, but, while all other qualifications seem to be present, the carelessness indicated by the manner in which you affixed your stamp may, unfortunately, be an index to the character of your work, and we may frankly say that the circumstance will be taken into consideration in reaching a decision."

"You could have knocked me down with a feather. I had no idea of a stamp except as carrying agent for the letter, and whether I placed it upside down, sideways to, criss-cross or on edge so long as it carried the letter did not appeal to me as material. I wrote and explained that the position of the stamp was not a character index and suggested the unfairness of the conclusion, as the stamp might have been put on by my office boy. An answer came in due time. Such deeply personal letters, the writer said, were not trusted to office boys by careful men. Argument: The office boy plea was merely another indication of possible carelessness. Now, whether that man was having fun with me or really took the matter so seriously I don't know, but I do know one thing."

"What's that?"
